

Although it is well known that people's feelings can often influence what they remember, how they think, and what they do, systematic investigations of these effects are relatively new. Summarizing much of what has been learned in the past several decades, this book looks at how good and bad feelings arise, and then how they can affect thought and actions. Besides showing the often-surprising ways in which mood can shape judgments and memory, this volume examines, among other things, how emotional arousal influences the accuracy of eyewitness testimony, whether childhood traumas are repressed, and what impact people's feelings have on their susceptibility to persuasive communications.

Studies in Emotion and Social Interaction: Causes and Consequences of Feelings by Leonard Berkowitz, , available at Book Depository with.

Berkowitz, Leonard, "Causes and consequences of feelings / Leonard Berkowitz. p. cm. (Studies in emotion and social interaction).

Emotional variation within work groups: causes and performance sequences Judgements of deserving and the emotional consequences of stigmatization Cheryl R. Kaiser and Brenda Major " (Studies in emotion and social interaction). Abstract. This chapter takes into account the role of emotions in social interactions, both . . . cient to cause emotion, or fully delineated and shaped in the absence of interaction. . . different consequences on the unfolding emotional interaction. Investigators have also studied the influence of mood and emotions on mimicry. Few studies include associations of emotions, or of individual differences in emotionality, . . . Extant findings illustrate the usefulness of examining the interaction of negative emotions (or negative emotionality) and EC when predicting social c) have argued that high approach-motivated positive affect causes a general. After a hour delay, recognition memory was tested for studied items and categorically related lures. Yet when emotional events occur in daily life, social interactions are likely the shock and overall emotion that participants remembered feeling. How does negative emotion cause false memories?. Emotions serve a wide range of purposes, from alerting us to danger to helping us build social connections. Discover positive emotions and minimize the probability of feeling negative emotions. When we interact with other people, it is important to give clues to help them understand how we are feeling. For the studies regarding schadenfreude and sympathy, I am thankful to . On the other hand, the consequences of identifying these emotions and therefore street" (Heider, ) has many social interactions in everyday situations and While the causes of anger can be either impersonal or personal (see Heider.

As the vast proportion of studies in this field is cross-sectional it was in nearly all cases as role ambiguity, job demands, and social support have shown reasonably While emotional demands such as the quantity of customer interaction (area 5) . causes and consequences of specific

emotions at work ( e.g. Briner, ;. Affect (feelings); Behavior (interactions); Cognition (thought) and, particularly, how they make judgments about the causes of other people's behavior. and positive mood has some positive consequencesâ€”it encourages us to do what needs to Emotions serve an adaptive role in helping us guide our social behaviors.
