

From an award-winning English artist and teacher whose work was exhibited at the esteemed Paris Salon and London's Royal Academy comes a beautifully designed guide to drawing the face and figure. The author of such artistic references as *The Technique of Pencil Drawing* and *The Art of the Pencil*, Borough Johnson also illustrated many famous poems and novels, including Longfellow's *Evangeline* and Hardy's *Tess of the D'Urbervilles*. Art cannot be taught. Drawing, like science, can. With those opening words, Borough Johnson takes a creative step forward, demonstrating how to draw the human figure with shading and texture, using pencil, chalk, and charcoal. In easy-to-follow terms, he explores the most important aspects of drawing the human form: anatomy, proportion, composition, motion, drawing from memory, and capturing emotion with an economy of line. He also offers eighty-two of his own compositions in black-and-white subjects that include a ballerina, fencer, gypsies, violinist, children playing, and more to illustrate his lessons. Eight color plates (red chalk drawings) are also included. Perfect for intermediate and advanced students who want to improve their skills, *Figure Drawing and Portraiture* is a valuable guide for every artist's reference shelf.
