

Herbert Scarf is a distinguished economist and has made a number of extraordinarily significant contributions to economics, game theory and operations research. This work has generated a major research field in economics termed Applied General Equilibrium Analysis. This book comprises all his research articles and consists of four volumes.

Red Tales: In The Beginning, The Song That Dances: Collected Poems, Einfuhrung in die Medizinische Statistik (Statistik und ihre Anwendungen) (German Edition), TOOTHACHE: Dealing with Toothaches Naturally: How to Prevent Toothaches and 16 Natural Home Remedies For Tooth Pain, The Weird Game Theory (Uncovering the truth behind the weird behavior) (Chinese Edition),
