

Hostile Shores: Isle Shiddonia A Poetic Story Saga which takes place in and around islands surrounded by miles of waterfalls, rendering themselves cut off from the outside world. Life in this valley (the inner world) has existed and flourished for so long separated from all outside effects and technology, that they are no longer aware of its presence. The inner world is inhabited by seven culturally and ethnically different peoples, each created as references from history. The style of each culture represents an individual iconic warrior. Each peoples culture, constitute a province and have its own elder. The stories of these iconic warriors inspired the first survivors that entered the inner world, and their entire culture embodies it. The elders visit the inner world as spirits via each Main Citys Temple and are available for spiritual guidance in times of peril, once the warrior allows a single personality to reach out. These cultures are in constant conflict and shifting alliances, however they all share a fear of the unknown, as described via their links to a Karma driven collective consciousness. The main character will begin a quest to unite the seven cultures within the inner world against his rival who has his own quest to take over the world, even if it means entering the outer world to utilize the advanced technologies. (This is the backstory to the Online Video Game Series Hostile Shores Online, and follows the rise to power of the main character.)
