

A brand new, fully updated, second edition of the classic bestseller Who are the professional investment managers responsible for moving and making millions on the stock market? What approaches and strategies do they adopt? Britain has more successful stock market investors than any other country outside the United States. Yet for a long time their activities - and the secrets of their success - have remained shrouded in mystery to anyone outside the Square Mile. Now the City's top professional investors have talked in depth to a leading financial writer about their lives and their strategies for making money on the stock market. They include such market wizards as the private investors champion Jim Slater, Michael Hart, long time manager of the UK's oldest investment trust, stockpicker supreme Anthony Bolton, and emerging markets guru Mark Mobius. Nobody with an interest in stocks and shares can fail to learn from reading how these consummate professionals go about their business. Or from their advice on what it takes to be a winner in the financial markets. The Money Makers profiled are: Anthony Bolton, Ian Rushbrook, Nils Taube, Colin McLean, Michael Hart, John Carrington, Jim Slater and Mark Mobius.
