

The Simpsons is one of the most literary and intelligent comedies on television todayâ€™ fertile ground for questions such as: Does Nietzsche justify Barts bad behavior? Is hypocrisy always unethical? What is Lisas conception of the Good? From the editor of and contributors to the widely-praised Seinfeld and Philosophy, The Simpsons and Philosophy is an insightful and humorous look at the philosophical tenets of Americas favorite animated family that will delight Simpsons fans and philosophy aficionados alike. Twenty-one philosophers and academics discuss and debate the absurd, hyper-ironic, strangely familiar world that is Springfield, the town without a state. In exploring the thought of key philosophers including Aristotle, Marx, Camus, Sartre, Heidegger, and Kant through episode plots and the characters antics, the contributors tackle issues like irony and the meaning of life, American anti-intellectualism, and existential rebellion. The volume also includes an episode guide and a chronology of philosophers which lists the names and dates of the major thinkers in the history of philosophy, accompanied by a representative quote from each.

Pediatric Facts Made Incredibly Quick! (Incredibly Easy! SeriesÂ®), Go Math! Grade 3 Teacher Edition Chapter 11: Perimeter and Area (Common Core Edition), Natures Way: A Sense of Beauty, Control Neuronal a Bloques: Aplicacion a un motor de induccion de desplazamiento lineal (Spanish Edition), 1001 Questions Answered About: Hurricanes, Tornadoes and Other Natural Air Disasters, The Homilies of Saint Gregory Palamas, Vol. 1, Decommissioning of Nuclear Facilities: Decontamination, Disassembly and Waste Management (Technical Reports Series (International Atomic Energy Agency)),
