

The conventional wisdom holds that the president of the United States is weak, hobbled by the separation of powers and the short reach of his formal legal authority. In this first-ever in-depth study of executive orders, Kenneth Mayer deals a strong blow to this view. Taking civil rights and foreign policy as examples, he shows how presidents have used a key tool of executive power to wield their inherent legal authority and pursue policy without congressional interference. Throughout the nations life, executive orders have allowed presidents to make momentous, unilateral policy choices: creating and abolishing executive branch agencies, reorganizing administrative and regulatory processes, handling emergencies, and determining how legislation is implemented. From the Louisiana Purchase to the Emancipation Proclamation, from Franklin Roosevelts establishment of the Executive Office of the President to Bill Clintons authorization of loan guarantees for Mexico, from Harry Trumans integration of the armed forces to Ronald Reagans seizures of regulatory control, American presidents have used executive orders (or their equivalents) to legislate in ways that extend far beyond administrative activity. By analyzing the pattern of presidents use of executive orders and the relationship of those orders to the presidency as an institution, Mayer describes an office much more powerful and active than the one depicted in the bulk of the political science literature. This distinguished work of scholarship shows that the U.S. presidency has a great deal more than the oft-cited power to persuade.

Concrete Hydration Based on Electrical Resistivity Measurement, Risk Assessment: Decisions in Banking and Finance (Contributions to Economics), Notes in Advance: An Autobiography in Music, Diane Stein: Essential Reiki Teaching Manual : A Companion Guide for Reiki Healers (Paperback); 2007 Edition, Vasily Zhukovskys Romanticism and the Emotional History of Russia (Northwestern University Press Studies in Russian Literature and Theory), The Transformation Game, Devices and Desires: Gender, Technology, and American Nursing (Studies in Social Medicine), Joys Journey Home, World Food Marketing Directory (World Food Marketing Directory (2vol Set)), Theoretische Informatik: Eine umfassende Einfuhrung (eXamen.press) (German Edition),

He'll sit here, and he'll say Do this! Do that! And nothing will happen. Poor Ike-it won't be a bit like the Army. He'll find it very frustrating. (Harry Truman on.
